

## Measurement form for ladies catsuit 07005 in latex 0,35 mm

This body measurement table should make it easier to find the right size. Please note, that they are not the model dimensions of the women's catsuit!  
**They are the body sizes, that will guarantee a perfectly tight fit that is wrinkle-free and comfortable.**

Lengthening and shortening of the sleeves and legs are all possible up to 5 cm free of charge.

You can simply send us adjustment requests in the comment field of the ordering process.

If the differences from the shown measurements are too large, especially in the body length, a made-to-measure is recommended.

All women's catsuit sizes are designed for a body size of approx. 168 cm. They fit perfectly with a body height of 165-172 cm.

**Find your size here:**

The main dimensions are highlighted in light pink!

To make it easier to find your size, there is the 'My measurements' column. Here you can enter what you measured and then compare it with the standard dimensions.
