

Measurement form for catsuit in latex 0,6,mm

This body measurement table is used to determine the size. Attention, the measurements are not the dimensions of the suit, but the dimensions of the body!

With these body dimensions, a perfectly tight fit is guaranteed, which is wrinkle-free and comfortable.

Shortening or extending the sleeves and legs are possible up to 5 cm free of charge.

You can simply tell us about this adjustment request when ordering in the comment field.

Unfortunately, you cannot use this offer if the deviations are too great, especially in the torso length. Then please ask for a custom-made-to-measure product.

Find your size here:

The main dimensions are highlighted in light blue!

To make it easier to find your size, there is the 'My measurements' column. Here you can enter what you measured and then compare it with the standard dimensions.

The Measurement sketch you find on Page 3.

Body-measurements only applicable for the catsuit in 0,6 mm-latex! (Measures in cm)									
Size	Nr. in the measure- ment-form	My Measures	XXS	XS	S	M	L	XL	XXL
neck-circumference	1		34,5	35,5	36,5	38	40	42	44
